

How to make a Love Tote Bag!

Or in Meagan's words,

"How to make a supermodel fashion show bag!"

Materials :

To make your Love Tote Bag you will need:

- Plain cotton tote
- Tracing paper
- Graphite pencil
- Fabric markers and crayons
- Sequins, beads, thread
- Iron and tea towel

Step 1 :

"Be Famous and cool!"

Step 2:

Trace your outline onto tracing paper.

Meags uses one of her trademark birdies.

Step 3:

Transfer the outline to your tote bag.

Flip the tracing paper over & place onto the tote. Use a biro or sharp implement to trace over the lines again (on reverse side) to transfer the image onto the tote. You can lift a corner (trying not to move it) to check it is transferring.

Step 4:

Heat set your outline.

Place a tea towel or spare fabric over your design and run over with a hot iron for about 4-5 minutes, constantly moving as you go so not to scorch your tote.

Step 5:

Colourful Rainbows! (Adding the colour!)

Now you've transferred your image...

It's time for colourful Rainbows!!!!

Make your design come alive with colour using your fabric markers or crayons.

Heat set again to fix your fabulous art!

Step 6:

Supermodel Sparkle it up Baby!

After you've done all your colourful Rainbow work it's time to glam it up using your beads, sequins and thread!

Step 7:

Wear it like a supermodel!!!!

"Thank you very much for making a supermodel show bag with me & hotting up your Tote!"

Be Famous...Be Awesome...Be a Supermodel!

Please help me to be famous and buy my cool artwork from Studio A! :)

Love from Ginger Meags! :)

Love love love love loveeeeeee...etc etc...xxxxxxxxxxx :)"
